QUALIFIED PSEUDORABIES NEGATIVE HERD STATUS FOR SWINE

Issued under the provisions of section ATCP 10.27, Wis. Admin. Code and the Pseudorabies Eradication State-Federal-Industry Program Standards.

This application shall be used to certify a herd of swine as a qualified pseudorabies negative herd if the herd qualifies for certification under the Pseudorabies National Eradication Program Standards. **Initial test** - for breeding herds, Qualified Negative status is attained by (1) subjecting to an official pseudorabies serologic test all swine over 6 months of age plus a number of progeny equal to 20% of the breeding swine population of the herd, and (2) finding that all swine are negative to the test. Progeny shall be randomly selected from swine between 4 and 6 months of age. The herd must not have been a known infected herd within the 30 days prior to the qualifying test. A minimum of 90% of the swine in the herd must have been on the premises and a part of the herd for at least 60 days prior to the qualifying official pseudorabies serologic test or have entered by direct shipment from another qualified negative herd.

Continued status - testing must be done either monthly or quarterly. For **monthly testing**, every 30 days, conduct an official pseudorabies serologic test of 7% of all breeding swine 6 months of age or older, and test a number of offspring 4 to 6 months of age located on the same premises as the breeding herd equal to 2% of the breeding animals in the herd. For **quarterly testing**, every 80 to 105 days, conduct an official pseudorabies serologic test of 20% of all breeding swine 6 months of age or older, and test a number of offspring 4 to 6 months of age located on the same premises as the breeding herd equal to 6% of the breeding animals in the herd. All swine tested shall be randomly selected and in the case of adult swine, representative of all age groups on the premises. Certification is good for a maximum of 12 months.

Every application for herd certification shall include a nonrefundable fee of \$50 for annual certification. A copy of pseudorabies test results must accompany this application if it is submitted for initial qualification.

Owner Information				
Name of Legal Entity or Person that owns herd			Business Name (if different)
